Roblox is involved in a lawsuit concerning child safety on the Internet. On September 17, 2021, two brothers filed a lawsuit in the United States District Court, Southern District of California against Roblox Corporation and its founder and CEO David Baszucki. The suit alleged that the defendants failed to protect their nine- and thirteen-year-old sons from inappropriate content on Roblox that resulted in emotional distress. The suit also accuses the company of negligence for failure to monitor potentially harmful content and failure to institute parental monitoring measures. The case is known as "McDonald v. Roblox".

In August 2021, a former employee posted a blog post detailing the company's "toxic" work culture and poor working conditions. The employee claimed that she was fired after speaking out about these issues and later filed a wrongful termination lawsuit against the company as well as several co-workers associated with her firing. The suit, which for the most part was dismissed, claimed that former CEO David Baszucki played an integral role in her firing as he forced the team to "ignore basic standards of professionalism". It also cited him for saying that "female workers in [his] office and in the tech industry were 'annoying' and should not serve in a high-ranking position."

The Chat Room is an area where players can talk or text either with themselves or with other players. The chatroom is separated into different categories, depending on what players are doing. Normal chat rooms for most players will probably contain users asking different questions about the game as well as people chatting about their creations. Other chatrooms include a room where people can indicate whether they want someone to play their games or put them up for sale and a "Celebrity Chat" that allows known celebrities to visit and hang out in the chatroom.

The news has attracted mixed responses from users. Some believe it's an improvement since it's more reliable, and fixes most of the bugs that caused users to constantly lose their work. Others think that it is useless due to the fact that ROBLOX Studio randomly changes collision methods and there are no descriptions on how to remedy this problem. Some have even started questioning how Roblox handles the games they host as well as some of their policies towards adult players/contents, and other problems like spam bots.

Do not worry if no one plays your game, since this will happen when the topic becomes old news among other players.
